Design and Access Statement

For The Foresters Arms 191 horning low road

Burton on Trent.

Replacement Windows (Ground Floor) P/12/01172

The intention is to replace all the ground floor timber single glazed windows. The present windows are in a very poor order and are rotting away. The New windows will be made of PVCu with 28mm glass units and toughened glass in all critical areas. The styles of the windows will replicate the existing sash windows with casement windows.

Conclusion

The replacement windows are necessary maintance work to maintain the fabric of the building and will not destroy or detract from the original building fabric.
