#### EAST STAFFORDSHIRE BOROUGH COUNCIL

Report to Scrutiny (Audit and Value for Money Council Services) Committee

Date: 24th September 2018

REPORT TITLE: Quarter 1 - Revenue and Capital Outturn 2018/19

PORTFOLIO: Leader / Finance

**HEAD OF SERVICE:** Sal Khan

CONTACT OFFICER: Lisa Turner, Chief Accountant Ext. No. x1399

WARD(S) AFFECTED: All

#### 1. Purpose of the Report

1.1 To accord with the Council's financial regulations, this report presents the forecast outturn position in relation to the Council's revenue budget, capital programme of expenditure, treasury and risk management activities. This is the first quarterly report in the annual cycle of financial monitoring for the financial year 2018/19.

#### 2. <u>Executive Summary</u>

- 2.1 The report highlights that overall there is a **forecast under-spend of £134k** for the full financial year against a net budget of £10.667m. Considering the extent of savings that have been built into the budget in recent years as a result of the unprecedented core funding reductions from central government, overall this is a good position at this early stage of the year.
- 2.2 Set out below are the most significant variations identified at this point in the year. It remains crucial that budget holders and Heads of Service continue to monitor their budgets closely and where necessary take action to contain spending within budget.
  - Net forecast savings (£60k) within the Community, Open Spaces and Facilities Division;
  - Income from planning applications is forecast to be in excess of budget, resulting in a saving of £220k;
  - There is a forecast net pressure on indoor leisure facilities (£61k) arising from a combination of factors; and

# ■ There are net forecast cost pressures within the Environment Division amounting to £81k.

Further details on these areas are detailed at paragraph 4.2.

- 2.4 Investments as at 30<sup>th</sup> June 2018 stood at £30m. Investment returns during the first quarter averaged 0.6%, which exceeds both the base rate and budget. Borrowing at the end of the quarter stands at £11.2m. The report highlights the risk associated with the timing of capital receipts that have been ring-fenced towards debt repayment in the budget, together with how this is mitigated for 2018/19. Further information in relation to Treasury Management is set out within Section 5 of this report.
- 2.5 The authority's capital spending plans total £1.6m. The report indicates that taking into account approved contingencies, all projects are on target to deliver within budget. Further details in respect of the Capital Programme are set out within Section 6 of the report.

#### 3. Revenue Budget 2018/19

3.1 On 26th February 2018, the full Council approved the Revenue Budget for the year 2018/19, totalling £10,667m as follows:

- 4.2 The tables at Appendix A summarise, by service division, the variations between the 2018/19 budget and the year-end forecast outturn. Further supporting narrative in relation to those divisions with significant variations is set out below:
- Community, Open Spaces and Facilities Forecast under-spend £60k
  At this early stage of the year, there are a number of forecast savings across the division, arising from a combination of factors including grounds maintenance, staff secondment savings and savings following a procurement exercise for plants. In addition to which, income from car parking season tickets is forecast to be £38k lower than the budget, with income from other car parking forecast to be £10k higher than the budget.

#### Planning – Forecast underspend £220k

Planning income has significantly exceeded budget during the first quarter. Taking into account a prudent estimate for the remainder of the year, this is forecast to exceed budget by £220k.

#### ■ Environment – Forecast net pressure - £81k

This pressure arises due to a number of factors. There is increased demand for replacement wheelie bins resulting in a forecast increase in expenditure of £40k. The timing of the review on public conveniences means there is pressure against the original savings target.

- Leisure Centres (Indoor Leisure) Forecast net cost pressure £61k
  There are a number of reasons for this net pressure including:
- Employee costs are forecast to exceed budget by £47k, this is partially due to the 2% vacancy factor built into the budget. In addition to this, we have seen a higher turnover of staff in the last twelve months that has contributed to an increase in training costs for both new starters and the delivery of mandatory training for all Leisure Centre employees, which happens during times when the leisure centre is closed:
- Despite measures that have been adopted to counter this, income is forecast to be £72k lower than budgeted, this is partly due to reduced memberships at the Meadowside Leisure Centre, which was significantly impacted by the opening of Gym Group in Burton and has not yet recovered. To put this point into context, we are currently 400 members down at Meadowside against the same point in 2017 (June's membership roll at Meadowside was 1,122), translating into approx. 12-14k less income each month than the same period in 2017. However, following the new-year campaign where we signed members up for 12 month deals, together with other work that has been undertaken, we have seen an improvement in attrition of 14% in April and May 2018 compared to previous years. In addition to which, we have increased sales in other areas and now have 695 people on multi swim card memberships and swimming lesson numbers have increased by 10%, with dry course numbers up by 20% since the turn of 2018.
- These pressures are partly offset by forecast savings of £53k primarily in relation to maintenance, energy and supplies and services.
- 4.3 As always, budget holders examine their controllable spend accordingly, identifying areas of unnecessary spend and develop action plans to remedy potential over spending/ loss of income and mitigate the associated risks.

#### 5. Treasury Management

5.1 The Council approved the Treasury Management Strategy Statement for 2018/19 on 26<sup>th</sup> February 2018 and this section is an update on progress against this Strategy and the Revenue Budget.

#### **Investment Returns**

- 5.2 The average rate of investment return that was assumed in the 2018/19 budget was 0.5%. The base rate increased from 0.25% to 0.5% in November 2017, with a further increase to 0.75% in August 2018. The bank rate is now at a nine year high, although future changes are likely to be slow but gradual increases over the coming years.
- 5.3 Appendix B shows the outstanding investments the authority had as at 30<sup>th</sup> June 2018. Average investment returns (0.6%) are performing above budget, which is a positive position considering our continued low risk approach. The investment listing (Appendix B) includes certificates of deposit held with a number of international banks. These instruments offer significant counterparty strength as well as diversification of the portfolio.

#### 5.5 Borrowing

The average rate payable on the Council's borrowing as at 30<sup>th</sup> June 2018 is 5.4%, with total, outstanding external debt of £11.2m.

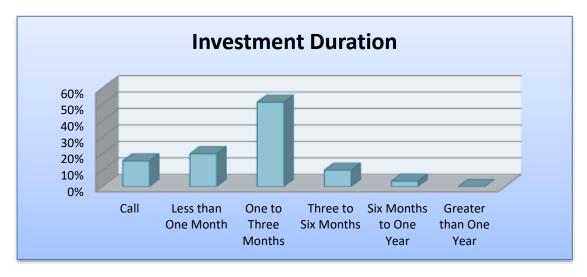

| Debt Type                  | Principal Outstanding (£) | Average<br>Rate |
|----------------------------|---------------------------|-----------------|
| Total Fixed Debt           |                           |                 |
| PWLB Maturity              | 5,700,000                 | 4.646%          |
| PWLB Annuity               | 606,029                   | 8.330%          |
| Total Variable Debt        |                           |                 |
| Market                     | 4,500,000                 | 5.914%          |
| GBSLEP Loan                | 375,000                   |                 |
| <b>Total External Debt</b> | 11,181,029                | 5.381%          |

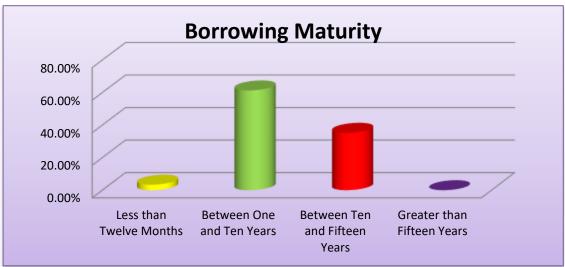

#### Capital Financing Budget

- 5.6 This budget consists of £0.8m associated with the cost of servicing the council's debt and £0.1m income from investment returns.
- 5.7 The capital financing budget was reduced by £153k for 2018/19 as a result of expected savings from the utilisation of capital receipts of £3.8m towards debt repayment. The Medium Term Financial Strategy highlighted that there was a risk of shortfall against the budget arising from the timing of these receipts. This risk is currently mitigated through a combination of investment income, which is forecast to exceed budget by £62k, and the debt repayment reserve.

#### 5.8 Maturity Structure of Investments and Borrowing

The following charts highlight the maturity structure for investments and for fixed term borrowing.

### 6. Capital Programme 2018/19

6.1 The table below details the approved capital projects for 2018/19 totalling £1.6m. This demonstrates that all projects are currently forecast to be delivered within the overall approved budget.

6.2 In respect of the Town Hall Office Accommodation Project, as part of the original business case, Cabinet approved a £69k contingency which has not yet been allocated. The table above highlights that the current forecast envisages drawing down £18k of this sum towards capital works, with a further £36k to support revenue costs associated with the re-location.

### 7. Financial Considerations

This section has been approved by the following member of the Financial Management Unit: Lisa Turner

7.1 This report deals solely with financial matters.
