1. Purpose of the Report

1.1 To accord with the Council's financial regulations, this report presents the forecast outturn position in relation to the Council's revenue budget, capital programme of expenditure, treasury and risk management activities. This is the second quarterly report in the annual cycle of financial monitoring for the financial year 2018/19.

2. Executive Summary

2.1 The report highlights that overall there is a **forecast under-spend of £201k** for the full financial year against a net budget of £10.667m. Considering the extent of savings that have been built into the budget in recent years as a result of the unprecedented core funding reductions from central government, overall this is a good position at this stage of the year.

2.2 Set out below are the most significant variations identified at this point in the year. It remains crucial that budget holders and Heads of Service continue to monitor their budgets closely and where necessary take action to contain spending within budget.

■ **Net forecast savings (£54k) within the Community, Open Spaces and Facilities Division;**

■ **Income from planning applications is forecast to be in excess of budget, resulting in a saving of £320k;**

■ **Significant forecast pressures on homeless accommodation (£99k) are currently being met on a temporary basis from ring-fenced reserves;**

- There is a forecast net pressure on indoor leisure facilities (£72k) arising from a combination of factors; and
- There are net forecast cost pressures within the Environment Division amounting to £141k.

Further details on these areas are detailed at paragraph 4.2.

- 2.4 Investments as at 30th September 2018 stood at £31m. Investment returns during the first half of the year averaged 0.76%, which exceeds both the average base rate and budget. External borrowing at the end of the quarter stands at £11.2m. The report continues to highlight the risk associated with the timing of capital receipts that have been ring-fenced towards debt repayment in the budget, together with how this is mitigated for 2018/19. Further information in relation to Treasury Management is set out within Section 5 of this report.
- 2.5 The authority's capital spending plans total £1.6m. The report indicates that taking into account approved contingencies, all projects are on target to deliver within budget. Further details in respect of the Capital Programme are set out within Section 6 of the report.

3. Revenue Budget 2018/19

- 3.1 On 26th February 2018, the full Council approved the Revenue Budget for the year 2018/19, totalling £10,667m as follows:

Approved Service Budgets	£000's
Arts, Brewhouse and Functions	393

3.2 Financial control is maintained by monitoring actual expenditure against approved budgets at regular intervals throughout the year. Authorised budget transfers and virements take place between individual services in accordance with financial regulations.

4. Forecast Revenue Outturn 2018/19

4.1. The following table indicates the quarter two variations and the expected effect on the outturn for the year. A number of variations are presently compensated for by temporary under or over spends.

4.2 The tables at Appendix A summarise, by service division, the variations between the 2018/19 budget and the year-end forecast outturn. Further supporting narrative in relation to those divisions with significant variations is set out below:

■ **Community, Open Spaces and Facilities – Forecast under-spend - £54k**

At this stage of the year, there are a number of forecast savings across the division, arising from a combination of factors but mainly arising from grounds maintenance, and staff secondment savings. In addition to which, income from car parking season tickets is forecast to be £35k lower than the budget, with income from other car parking forecast to be £4k higher than the budget.

■ **Planning – Forecast underspend £332k**

Planning income has significantly exceeded budget during the first half of the year. Taking into account a prudent estimate for the remainder of the year, this is forecast to exceed budget by £320k. There are pressures on staffing resources within this service due to a combination of factors. This pressure has been offset by the use of ring-fenced monies associated with the 20% fee increase introduced in 2017/18.

■ **Environment – Forecast net pressure - £141k**

This pressure arises due to a number of factors. There is increased demand for replacement wheelie bins resulting in a forecast increase in expenditure of £40k. Following consideration of the review on public conveniences the original savings target (£60k) will not be achieved. In addition to which, the recycling income budget is under pressure as a result of a reduction in pricing.

■ **Housing/Homeless Accommodation – Pressures (£99k) met from reserves**

There are forecast net pressures on homeless accommodation of £99k, which can be met from ring-fenced homeless funding. This has arisen largely due to increased demand and extended lengths of stay in temporary accommodation, which is primarily influenced by the introduction of the Homeless Reduction Act (HRA), although there are also other factors that have impacted on this position. Key changes that have resulted in this pressure are outlined below:

- Overall we have seen a 93% increase in numbers that have been accommodated during the first half of the year in comparison to 2017;
- The length of stays/number of nights accommodated has increased by 59%;
- The average cost per night has increased by 33% on the same period last year due to various factors; the closure of an existing lower cost provider, price increases for existing providers and the underlying level of demand means additional use of higher cost providers.

A recent study conducted by the District Council's Network following the implementation of the Housing Reduction Act 2017 in order to understand the impact in the first six months since its introduction made the following key points:

- Two thirds of Councils have seen an increase in the visible signs of homelessness in recent years;
- Around 50% of district councils have seen an increase in requests for advice and assistance, with other areas indicating over 100%;
- The new burdens funding is insufficient to sustain the work required to fully implement the HRA.

There are a number of actions that are being taken to mitigate these cost pressures, including those outlined within the report to Cabinet in February 2018. The housing allocations policy was revised and approved by Cabinet on 12th November 2018 which will enable an offer of settled accommodation earlier than at present. Additional lower cost leasehold accommodation is in the process of being acquired and it is expected that there will be an increased supply of lower cost temporary accommodation available in the market in the medium term.

This pressure has been mitigated by the use of homeless reserves in 2018/19. There is a funding allocation in 2019/20 (£142k) from central government to mitigate these pressures, however this may become a factor for the MTFs if demand continues to increase and additional funding is not forthcoming from central government.

■ **Leisure Centres (Indoor Leisure) – Forecast net cost pressure - £72k**

There are a number of reasons for this net pressure including:

- Employee costs are forecast to exceed budget by £40k. This is partially due to the 2% vacancy factor built into the budget – unlike many other services when vacancies occur in this service they are back filled immediately to ensure service continuity. The School Swimming offer has been increased at the Meadowside Leisure Centre, with lessons now being delivered directly to 16 local schools. Finally we have seen a higher turnover of staff in the last twelve months that has contributed to an increase in staffing costs whilst new staff are trained.
- Despite measures that have been adopted to counter this, income is forecast to be £98k lower than budgeted, this is mainly due to reduced memberships at the Meadowside Leisure Centre, which was significantly impacted by the opening of Gym Group in Burton and has since only slightly recovered. To put this point into context, we are now 323 members down at Meadowside against the same point in 2017 (Septembers membership roll at Meadowside was 1,133). We have continued to increase sales in other areas and since quarter one we have seen a 7% increase for people on multi swim card memberships with a total of 743 memberships. Swimming lesson numbers have also increased in comparison to quarter one by 6%. Dry course numbers remains the same with a 20% increase since the turn of 2018.
- These pressures are partly offset by forecast savings of £66k primarily in relation to maintenance, energy and supplies and services.

- 4.3 As always, budget holders examine their controllable spend accordingly, identifying areas of unnecessary spend and develop action plans to remedy potential over spending/ loss of income and mitigate the associated risks.

5. **Treasury Management**

- 5.1 The Council approved the Treasury Management Strategy Statement for 2018/19 on 26th February 2018 and this section is an update on progress against this Strategy and the Revenue Budget.

Investment Returns

- 5.2 The average rate of investment return that was assumed in the 2018/19 budget was 0.5%. The base rate increased from 0.25% to 0.5% in November 2017, with a further increase to 0.75% in August 2018. The bank rate is now at a nine year high, although future changes are likely to be slow but gradual increases over the coming years.

5.3 Appendix B shows the outstanding investments the authority had as at 30th September 2018. Average investment returns (0.76%) are performing above budget, which is a positive position considering our continued low risk approach. The investment listing (Appendix B) includes certificates of deposit held with a number of international banks, as well as UK Government Treasury Bills. These instruments offer significant counterparty strength as well as diversification of the portfolio.

5.5 Borrowing

The average rate payable on the Council's external borrowing as at 30th September 2018 is 5.4%, with total, outstanding external debt of £11.2m.

Debt Type	Principal Outstanding (£)	Average Rate
Total Fixed Debt		
PWLB Maturity	5,700,000	4.646%
PWLB Annuity	605,962	8.330%
Total Variable Debt		
Market	4,500,000	5.914%
GBSLEP Loan	375,000	
Total External Debt	11,180,962	5.381%

Capital Financing Budget

5.6 This budget consists of £0.8m associated with the cost of servicing the council's debt and £0.1m income from investment returns.

5.7 The capital financing budget was reduced by £153k for 2018/19 as a result of expected savings from the utilisation of anticipated capital receipts of £3.8m towards debt repayment. The Medium Term Financial Strategy highlighted that there was a risk of shortfall against the budget arising from the timing of these receipts. This risk is currently mitigated through a combination of investment income, which is forecast to exceed budget by £100k, and the debt repayment reserve.

5.8 Maturity Structure of Investments and Borrowing

The following charts highlight the maturity structure for investments and for fixed term borrowing.

6. Capital Programme 2018/19

6.1 The table below details the approved capital projects for 2018/19 totalling £1.6m. This demonstrates that all projects are currently forecast to be delivered within the overall approved budget.

2018-19	Current Year Budget £	Current Year Expenditure to 30th Sept. £	Remaining Budget £	Forecast 2018/19 Expenditure at Quarter 2 £	Draw down of approved contingency £	Comments

Total	1,645,613	214,884	1,430,729	1,663,769	18,156	

6.2 In respect of the Town Hall Office Accommodation Project, as part of the original business case, Cabinet approved a £69k contingency which has not yet been allocated. The table above highlights that the current forecast envisages drawing down £18k of this sum towards capital works, with a further £40k to support revenue costs associated with the re-location.

7. Financial Considerations

This section has been approved by the following member of the Financial Management Unit: Lisa Turner

7.1 This report deals solely with financial matters.
